Two important functions are performed:

End USER Function - identify an highly qualified technician when the logo PRODUCT-CARD is displayed from which it is possible to obtain technical assistance or advisories regarding our products on board. This infact is not a advertisement logo but it is intended for use only by highly qualified technicians.

End PRODUCT Function - it serves as a unequivocal identifier to the product itself, being associated to a particular product.

On CHIP information of this card concerns assembly date, testing date, sales date.

*Whatever is your boat, or you ave,
or you will have a XP of Boatmotive.*

*Because boatmotive gives you what you need.
Because boatmotive knows what it is needed.*
